Dynamic project management, agile software development and international teams are our key success factors.

For our operations in **Warsaw / Poznań and also fully remote** we are currently looking for smart professionals in the field of

## Atlassian Engineer

### Your tasks

- ❖ Configuration, maintenance, and administration of Atlassian products (e.g., Jira, Confluence, Bitbucket, Artifactory).
- ❖ Evaluate and manage the usage of tools and plugins to meet team and business needs
- ❖ Work with internal stakeholders (within the same division, Group Operations) and other departments like IT Services and Product Management to identify procedural efficiencies, such as Jira workflows, custom fields, and process automation.
- ❖ Define, test, and deploy integrations between Atlassian products and other internal tools, especially Microsoft enterprise solutions (e.g., Azure Service Bus, Dynamics).
- ❖ Represent, drive, and coordinate the division's interests and needs in enterprise-wide programs to roll-out and change the business application landscape (e.g., ERP implementation and evolution).
- ❖ Conduct training for employees and new hires and briefing the team/s on new functionalities and process improvements.
- ❖ Issue resolution in coordination with other admins, partner teams and integration & implementation partners.

### Your qualifications

- ❖ Bachelor or master's degree in information technology / computer science or any equivalent experience.
- ❖ Minimum 3 years' experience administrating Atlassian products (Jira, Confluence, Bitbucket, Artifactory).
- ❖ Experience integrating Atlassian products with other systems and extending them via code development and/or JQL.
- ❖ Working knowledge of both Scrum and Kanban methodologies (SAFe is a Plus)
- ❖ Solution oriented attitude and customer consulting experience.

- ❖ Excellent communication and interpersonal skills/ability to influence multiple stakeholders both internally and externally.
- ❖ Very good language skills in English

### What you can expect from us

- ❖ Working with latest technologies
- ❖ Lots of career development potentials
- ❖ Challenging projects (usually product/feature development)
- ❖ International software development teams with distributed delivery groups
- ❖ Remote work and flexible working hours
- ❖ Private healthcare and Multisport card
- ❖ Training & education
- ❖ Direct employment - by Crealogix Poland
- ❖ Attractive remuneration
- ❖ Language classes (usually business English; but not limited to)
- ❖ Modern computer equipment, incl. Apple device policy
- ❖ Employee referral programme
- ❖ Integrational meetings & events
