About Bytamic

Bytamic is an international IT-services and Consulting company with its headquarters in Vienna, Austria and subsidiary companies in Warsaw and Poznań. We work with multinational companies and we drive digital transformation for our clients. We are truly agile, work with the latest technologies and our engineers and scrum-teams deliver state-of-the-art product development services for our clients. Delivering with highest quality standards is key to us – therefore we focus on continuous training & education of our engineers.

For our operations in **Warsaw/Poznań and also fully remote** we are currently looking for smart professionals in the field of

Azure Cloud Engineer

About your role

❖ Expand, automate, maintain, and optimize Azure-based cloud infrastructure
❖ Work autonomously and iteratively to improve development and production site reliability and flexibility
❖ Collaborate with other engineering teams and architects to ensure services/systems are stable and efficient
❖ Educate others on best practices and collaborate on solutions across the company
❖ In the future also a stronger role in monitoring is planned (to be aligned with CTO and Head of Engineering)

Your qualifications

❖ 3+ years of experience building and maintaining CI/CD pipelines, as well as Azure production and development environments
❖ Azure knowhow/experience (In case only AWS or GCP experiences are present, those need to be very strong and you need to develop yourself very fast in Azure)
❖ Experience with provisioning tools such as Terraform
❖ Scripting experience in Bash and /or PowerShell
❖ Excellent cross-discipline communication skills
❖ Comfortable working in a fast-paced, autonomous, and ambiguous environment
❖ A constant desire to learn, improve, and help others improve
❖ MSc/MA in computer science, engineering or other relevant field
❖ Very good knowledge of English

Nice to have:

- ❖ Experience with --> (AKS, Storage, Service Bus, Event Grid, Key Vault, Logic Apps)
- ❖ Experience with Java and the JVM – Spring Boot
- ❖ Experience with monitoring tools such as Application Insights, Splunk, Dynatrace, etc.

What you can expect from us

- ❖ Working with latest technologies
- ❖ Lots of career development potentials
- ❖ International clients with challenging projects (usually product/feature development)
- ❖ International software development teams with distributed delivery groups
- ❖ Remote work and flexible working hours
- ❖ Private healthcare and Multisport card
- ❖ Training & education
- ❖ Attractive remuneration
- ❖ Language classes (usually business English; but not limited to)
- ❖ Modern computer equipment, incl. Apple device policy
- ❖ Employee referral programme
- ❖ Integrational meetings & events
