For our operations in **Warsaw / Poznań and also fully remote** we are currently looking for smart professionals in the field of

Business Analyst with German

Your tasks

- ❖ Be involved in the process of planning and implementation of e-banking digital solutions
- ❖ Lead the process of identification of requirements, ensuring the quality of specifications through reviews and walkthroughs
- ❖ Manage different requests from clients
- ❖ Evaluate the feasibility and business benefits of the requirements together with the product management, clients, project management, and development team(s)
- ❖ Identify, document, examine, set priorities, and manage requests as well as analyze new or changed requests and adjust them with already existing ones
- ❖ Identify potentially problematic issues, resolve them through dialogue, or timely escalate them to the responsible stakeholders
- ❖ Successfully implement engineering requirements in the agile product development environment
- ❖ Work closely with developers and QAs to provide economic and high-quality software as well as the best possible „time to market “
- ❖ Work together with other business analysts and Product Owners in the development team on implementation, verification, and documentation of the solutions
- ❖ Work together with the business analysis team to evaluate their effectiveness, and contribute with your proposals to the continued improvement of our services
- ❖ Verify the achieved results and carry out the test and adoption procedures
- ❖ Be responsible for the reconciliation and joint working results

Your qualifications

- ❖ Experience working on the definition of user-friendly web applications
- ❖ Deep experience working with tools to review APIs
- ❖ Rest APIs, Open API / Swagger, SoapUI, Swagger, Postman, CRUD operations

- ❖ Basic SQL
- ❖ Strong understanding of UX & UI best practises
- ❖ Familiar with Acceptance Criteria and DOD concepts
- ❖ Experience in User Acceptance Testing
- ❖ You are familiar and comfortable with terms such as iterative requirements engineering, product ownership, backlog management, user stories
- ❖ Ability to think analytically and conceptually with a structured approach, to work independently with great personal initiative, sense of responsibility, and convincing appearance
- ❖ English language

What you can expect from us

- ❖ Working with latest technologies
- ❖ Lots of career development potentials
- ❖ Challenging projects (usually product/feature development)
- ❖ International software development teams with distributed delivery groups
- ❖ Remote work and flexible working hours
- ❖ Private healthcare and Multisport card
- ❖ Training & education
- ❖ Direct employment - by Crealogix Poland
- ❖ Attractive remuneration
- ❖ Language classes (usually business English; but not limited to)
- ❖ Modern computer equipment, incl. Apple device policy
- ❖ Employee referral programme
- ❖ Integrational meetings & events
