

About Bytamic

Bytamic is an international IT-services and Consulting company with its headquarters in Vienna, Austria and subsidiary companies in Warsaw and Poznań. We work with multinational companies and we drive digital transformation for our clients. We are truly agile, work with the latest technologies and our engineers and scrum-teams deliver state-of-the-art product development services for our clients. Delivering with highest quality standards is key to us – therefore we focus on continuous training & education of our engineers.

For our operations in **Warsaw/Poznań and also fully remote** we are currently looking for smart professionals in the field of

Professional Java Developer

Your tasks

We are looking for a Professional Java Developer with experience in building high-performing, scalable, enterprise-grade applications. You will be part of a talented software team that works on reliable applications. Java developer roles and responsibilities include managing Java (Spring Boot) application development while providing expertise in the full software development lifecycle, from concept and design to testing. Java developer responsibilities include designing, developing and delivering high-volume, low-latency applications for reliable systems

Your main focus area will be to:

- ❖ Contribute in all phases of the development lifecycle
- ❖ Write well designed, testable, efficient Java code (Java 11, Spring Boot, OpenAPI, Gradle, Git)
- ❖ Support continuous improvement by investigating alternatives and technologies and presenting these for architectural review
- ❖ Write unit and integration tests to ensure high application quality to meet business requirements.
- ❖ Prepare and produce releases of software components.

Your qualifications

- ❖ BS/MS degree in Computer Science, Engineering or a related subject
- ❖ Proven hands-on Software Development experience

- ❖ Hands on experience in designing and developing applications using Spring Framework
- ❖ Object Oriented analysis and design using common design patterns.
- ❖ Excellent knowledge of Relational Databases, SQL and ORM technologies (JPA2, Hibernate)
- ❖ Experience in the Spring Framework
- ❖ Experience with test-driven development
- ❖ Good knowledge of English

What you can expect from us

- ❖ Working with latest technologies
- ❖ Lots of career development potentials
- ❖ International clients with challenging projects (usually product/feature development)
- ❖ International software development teams with distributed delivery groups
- ❖ Remote work and flexible working hours
- ❖ Private healthcare and Multisport card
- ❖ Training & education
- ❖ Attractive remuneration
- ❖ Language classes (usually business English; but not limited to)
- ❖ Modern computer equipment, incl. Apple device policy
- ❖ Employee referral programme
- ❖ Integrational meetings & events

If you are interested, please send your CV in English to career@bytamic.com and include the following consent:
