

## About Bytamic

Bytamic is an international IT-services and Consulting company with its headquarters in Vienna, Austria and subsidiary companies in Warsaw and Poznań. We work with multinational companies and we drive digital transformation for our clients. We are truly agile, work with the latest technologies and our engineers and scrum-teams deliver state-of-the-art product development services for our clients. Delivering with highest quality standards is key to us – therefore we focus on continuous training & education of our engineers.

For our operations in **Warsaw/Poznań and also fully remote** we are currently looking for smart professionals in the field of

## QA Engineer (Cypress)

### Your tasks

You will be part of a talented team that works on mission-critical applications. Your main focus area will be to:

- ❖ Design, develop and execute automation scripts using Cypress
- ❖ Create detailed, comprehensive and well-structured test plans and test cases
- ❖ Estimate, prioritize, plan and coordinate testing activities
- ❖ Identify, record, document thoroughly and track bugs using Jira and Xray
- ❖ Review requirements, specifications and technical design documents to provide timely and meaningful feedback
- ❖ Perform thorough regression testing when bugs are resolved
- ❖ Develop and apply testing processes for new and existing products to meet client needs
- ❖ Liaise with internal teams (e.g. developers and product managers) to identify system requirements
- ❖ Monitor debugging process results
- ❖ Track quality assurance metrics, like defect densities and open defect counts
- ❖ Stay up-to-date with new testing tools and test strategies
- ❖ Execute manual and exploratory tests when needed

### Your qualifications

- ❖ Proven work experience in software development
- ❖ Proven work experience in software quality assurance
- ❖ Strong knowledge of software QA methodologies, tools and processes
- ❖ Experience in writing clear, concise and comprehensive test plans and test cases

- ❖ Hands-on experience with both white box and black box testing
- ❖ Hands-on experience with automated testing tools like Cypress
- ❖ Solid knowledge of SQL and scripting
- ❖ Experience working in an Agile/Scrum development process
- ❖ Experience with performance and/or security testing is a plus
- ❖ BS/MS degree in Computer Science, Engineering or a related subject
- ❖ Good knowledge of English

### What you can expect from us

- ❖ Working with latest technologies
- ❖ Lots of career development potentials
- ❖ International clients with challenging projects (usually product/feature development)
- ❖ International software development teams with distributed delivery groups
- ❖ Remote work and flexible working hours
- ❖ Private healthcare and Multisport card
- ❖ Training & education
- ❖ Attractive remuneration
- ❖ Language classes (usually business English; but not limited to)
- ❖ Modern computer equipment, incl. Apple device policy
- ❖ Employee referral programme
- ❖ Integrational meetings & events
